

FEEDING FLOOR

ONLY \$28.00

WHY NOT BUILD ONE, SAVE YOUR FEED AND PROTECT YOUR STOCK?

A Floor 24x30 Feet Will Require:
 About 40 Sacks of Cement at 40c.....\$16.00
 5 Yards of Sand at 15c......75
 7½ Yards of Crushed Stone at \$1.35..... 10.12
 Total.....\$28.87

If you saved only one load of corn at present prices you would save more than the cost of the floor, to say nothing of the economy and convenience to yourself and the improved sanitary conditions for your stock. Hogs are rarely afflicted with cholera if they have clean feed and pure water.

IS VIADUCT SAFE? READY FOR SALES

City Railway Is Investigating Through Expert Engineers.

May Close It to Traffic for This Week.

Street car traffic over the Sixth street viaduct may be discontinued during fair week, owing to the weak condition of the structure. Over long distance telephone Saturday night A. M. Patten of the Topeka Street Railway company engaged A. A. Trocan, an expert bridge engineer of Kansas City, Mo., to come to Topeka and make an immediate investigation. He was to arrive on an early train this morning, and a statement from him as to whether or not it is advisable to cease the operation of street cars over the big bridge is expected today.

"There are no recent developments in the condition of the viaduct to indicate that it is any more dangerous than it has been for several months," said Mr. Patten, "but in view of the heavy traffic expected this week, we do not care to take unnecessary risks. We are using only the smallest cars we have over the viaduct, but they will be heavily loaded with a live weight."

The Sixth street viaduct has been considered dangerous for months. The city commission nearly a year ago engaged an expert to make a report. His report was that the structure was decidedly unsafe and should be torn down. Two years ago one span gave way under the weight of a street car. No one was injured.

Basing their action on the report of the expert engineer, the city commission notified the Santa Fe, Missouri Pacific and Topeka Street Railway company to build a new viaduct. Nine months in which to comply with the demand was allotted the companies by the city. The nine months will be up October 1.

George P. Hayden, city attorney, said today that he was prepared to go into court with the matter on that date. "I can not understand why the companies have delayed, for in my opinion there is no question about the city's having the authority to support its demand and in the meantime the companies are taking a risk."

The seriousness of the condition of the viaduct is indicated by the fact that the Topeka Street Railway company, on its own volition and not through any initiative of the city commissioners, is making the present investigation.

SANTA FE NOTES.

(Items for this department may be phoned to 3915 or State Journal office.)

Mrs. Barnes, wife of machinist T. M. Barnes, Mrs. E. M. Seagrave and children, will return Wednesday from Cincinnati, O., where they spent the past month visiting relatives.

Mrs. Gentry and daughter, Lois, family of C. P. Gentry of the stationery department are spending this week with her parents, Engineer C. H. Barry and Mrs. Barry in Argentine.

Howard W. Hunt of the store department in San Bernardino, Cal., has returned here today to spend this week here on business.

The little son of George B. Villegas of the Wells Fargo office, and Mrs. Villegas is slowly improving from a week's serious illness.

Miss Florence Cooper, stenographer in the treasurer's office, and Miss Ethel Marting, have returned from a short visit with friends in Hutchinson.

Fireman George Hartline, who has been assigned to temporary work here has gone to Argentine on business for a few days. The regular meeting of the Ladies' Auxiliary to the S. F. of N. A. will be held next Friday afternoon in the U. C. T. hall.

Mr. and Mrs. Riley Lindwood have returned to their home in Toronto, Kan., after a week's visit with Switchman and Mrs. John Feldner.

Mr. Frank Jolley has returned to Kirksville, Mo., after a few days' visit with his mother, Mrs. E. J. Jolley, and family.

Mrs. F. C. Harwood and children have returned to their home in Newton, Kan., after a week's visit here.

Mrs. Martha Campbell left Thursday for Knoxville, Tenn., where she will spend a few months with relatives.

Mr. and Mrs. C. W. Gould of Lawrence will spend a few days this week with relatives here.

Mrs. Thos. Berryman and children have returned to their home in Chicago, after a two weeks' visit with relatives here.

The gymnasium classes under the direction of John Bouge, newly appointed physical director, will start the winter's work the last of September.

Mrs. Mary Harwood has gone to Argentine to spend a few weeks with her brothers, Engineers E. S. and John Ash.

Motor Washers at Forbes.—Adv.

The Baird Pneumatic Tool Company Is Incorporated.

Capital Stock \$100,000; Main Offices in Topeka.

The incorporation of the Baird Pneumatic Tool company has been completed under the Kansas law with a capital stock of \$100,000. Archie M. Baird of Topeka, W. E. Carrie, C. D. Wellman, F. E. Fessenden and Edwin D. McKeever are the incorporators. The home office of the company is in the New England building.

The company plans to have the manufacture of the tools done by contract until such time as the demand for them creates a necessity for a private factory of its own. At present the tools are being made in Topeka, Atchison and Kansas City.

Archie M. Baird, president of the company, is well known throughout the country as an inventor of practical tools. He has been with the Santa Fe for twenty-five years and for some time has been assistant superintendent of the shops here. The success of the new company is practically assured, having the name of Mr. Baird at its head and holding control of such a large list of tools.

Among the patents assigned to the company by Mr. Baird are: Plug cleaning rattle and enlarger; pipe, arch flue and pipe bending machine, and a balance valve. In addition to this list of recent patents there are numerous tools that were manufactured by the company several years ago. A complete catalogue is now in the hands of the printers and will be out in a short time. Several of the leading agencies of this class of machinery will have charge of the sales in the United States and in Canada. Besides these there will be several special representatives in the field to sell direct and to help the agencies in closing sales.

Some of Mr. Baird's inventions are in use already by several of the leading railroads of the country. The

GALENA CITIZEN

Out With Truth States He Recovered Rapidly.

Says He Feels Fine and Is a Well Man Now.

LANDS WORK OF TANLAC

He Praises Remedy for Benefitting Him.

Advises Friends to Use It and Get Relief.

John Main, who resides in Galena, Kan., made the following interesting statement:

"I had stomach trouble for two years and it gave me no end of worry. I naturally had a poor appetite, actually dreaded eating. Usually, after meals, I would have a pain in the pit of my stomach and a general hurting caused by the formation of gas. I belched frequently and could taste my food hours after eating. I even felt pains under my shoulder blades and felt all tired and worn out."

"I read and heard of Tanlac and what it was doing. I tried the medicine with wonderful results. Out of two bottles I got relief and now feel like a new man. I believe that it has relieved me permanently of the pains and the stomach trouble that caused me so much worry."

This is only one of the many statements made by Kansans who say they have found genuine benefits in instances of stomach, liver and kidney troubles and catarrh after taking Tanlac, the premier preparation.

A tired, dragging feeling of the body, a sluggish mind and dull memory, depression of spirits, nervousness, stomach trouble, weak back, headaches and constipation are among the numerous symptoms of a condition from which Mr. Main and a surprisingly large number of people in all cities like Topeka suffer.

Thousands are now using Tanlac to overcome that very trouble, and in each instance, the results have been unusual.

Tanlac, the magic medicine, is now distributed in this city through Tully-McFarland Drug Co., successors to Matt Weightman, Ninth and Kansas avenues, where W. C. Pope is personally meeting the public daily and explaining Tanlac.—Adv.

SWEDEN SOON IN?

Belief Prevails She Will Cast Lot With Germany.

Kaiser Doing His Best to Involve His Neighbor.

WAR PARTY FAVORS BERLIN

Financial Interests Declared in Favor of Strife.

Militarists Busy Working Up Sentiment Against Russ.

London, Sept. 13.—What will Sweden do?

This is the question being asked with increasing frequency here.

No one knows why Sweden should do anything. But that she will do something shortly favoring one side or the other in the great war seems to be an established opinion in the allied countries.

Soon to Join Kaiser.

It is undeniable that public opinion, based on more or less reliable information, is that Sweden will shortly throw in her lot with Germany. Investigation in diplomatic circles develops these facts:

Germany is doing her best to bring Sweden into the war.

There is a certain party in Sweden that favors Germans and is willing to have the Swedish army help the Germans. This party includes the financial interests, but is in the minority numerically.

Progressives Against War.

The progressive party, which outvoted the reactionary party two to one in the last election, is anti-German and anti-war.

The war party in Sweden is trying to create popular sentiment against Russia, reminding the Swedes that Russia took Finland from Sweden.

The militarists of Sweden are of the German school; the Swedish army is trained on German lines; the sympathies of many Swedish militarists are with Germany.

The chief outstanding fact is that Swedish democracy is being severely tested on the war question. If this democracy succeeds, Sweden will not enter the war.

BIG YEAR AT BETHANY

A Large Increase in Enrollment Is Expected.

A large increase in enrollment is expected when Bethany college opens Wednesday morning. The kindergarten department started work this morning. Forty-five students are enrolled in this department under Miss Mabel Bartholomew.

Miss Sarah Quisenberry, new assistant instructor in the voice department, has arrived in Topeka. Miss Hazel Branch, head of the Latin department, has returned from California, where she spent her vacation. Miss Helen Yule McCoy, head of the mathematics department, and Miss Pattie Miller, who have been visiting in Illinois, will return later this week. Miss Lela Mercer of the intermediate department returned today.

Two new members of the faculty, Miss Wilhelmina Harris and Miss Gertrude Mutton, also arrived today. Miss Harris is a teacher of German and French. She has been living in Europe for several years. Miss Mutton is an instructor in piano. She studied for two years in Berlin.

An automobile is used to gather the students in the kindergarten department and a careful driver has been secured.

EX-BANKERS ON RACK

Trial of Former Officers of Defunct Kansas City Concern Is Started.

Kansas City, Sept. 13.—Four former officers of the defunct American Union Trust company were placed on trial in the federal court here today on a charge of using the mails to defraud. The trial is the first of a series of prosecutions growing out of the failure of the All Night and Day bank and the closing of the American Union Trust company, which had absorbed the bank.

The men on trial are George L. Davis, a Kansas City attorney; John Beery and W. L. Moyer of Kansas City, and T. L. Matkins of Chicago. Henry W. Richardson, the organizer of the institution, also was included in the indictment, but has not been arrested.

The indictment charges that fraudulent statements of the assets of the American Union Trust company were made and sent through the mails. The government will question about fifty witnesses. The defense has called forty.

A second indictment charging the five men mentioned in the first together with others connected with the trust company, with a general conspiracy, also is pending.

COST OF CITY COAL

Many Bids But Contract Has Not Been Awarded.

No action was taken by the city commission today on the matter of awarding a contract for supplying the city with coal for the coming year. The bids were received Thursday. The Topeka Coal company's figures were lowest, but there was a provision in the bid that in case freight rates were increased, the increase could be added to the price of coal. This provision was unsatisfactory and for this reason, although the contract has not been awarded, the check of the Topeka Coal company, which accompanied the bid, was today returned.

Tips to Visitors to the Big Free Fair

We invite your attention to our new facilities for handling the guests of Topeka's Great Free Fair. A new Terminal Inside the Grounds. Your train will be met at the station by special cars running directly into the grounds without change.

FIVE CENT FARE FOR ADULTS CHILDREN, UNDER 6 YEARS, FREE

The street car service is the reliable street transportation service. The company is financially responsible.

Why pay some other service one jitney to get uptown and another to get down to the grounds? The street cars take you inside for one five-cent fare.

Why pay for the children? The street cars carry them up to six years of age free.

Why trust yourself to an auto driver who sacrifices safety to speed to get in more trips, and can afford to take the risk because he is financially irresponsible?

Think It Over—Get Wise!

Topeka Railway Co.

Our men will direct you where to go and how to get there. Their knowledge of the city is at your service. Look for the YELLOW "ASK ME" BADGES, and ask them.
